

Amendments to the Claims

1. (currently amended) A kit for organizing a plurality of images provided by a customer on a plurality of hard copy prints, comprising[;]:
~~at least one order form configured to include at least one good and/or service selectable by a customer, the order form to provide an order to be fulfilled by a service provider; and~~
~~at least one instruction form containing a machine-readable code, the machine-readable code configured to organize a plurality of customer provided hard copy images into categories and to forward said images to said service provider to fulfill said order~~
a plurality of labels each having machine readable code to identify a separate category of customer provided hard copy images;
a plurality of instruction forms each having machine-readable code to associate each of the plurality of instruction forms with a separate label and to provide information to each customer provided hard copy image associated with the separate label; and
at least one order form having machine-readable instructions to associate one or more of the separate category of customer provided hard copy images with at least one good or service and for ordering the at least one good or service.
2. (currently amended) [A] The kit according to claim 1 further comprising instructions for the customer on how to use the kit.
3. (currently amended) [A] The kit according to claim 2 wherein said instructions are provided on a hard copy document.
4. (currently amended) [A] The kit according to claim 2 wherein said instructions are provided in an audio or visual format.
5. (currently amended) [A] The kit according to claim 1 further comprising a holder for organizing said images obtained by scanning said hard copy prints by said service provider.

6. (currently amended) [A] The kit according to claim 5 wherein said holder includes pockets for organizing said hard copy prints and associating said instruction form with said plurality of hard copy prints.

7. (currently amended) [A] The kit according to claim 5 wherein said holder comprises an envelope.

8. (currently amended) [A] The kit according to claim 1 wherein said ~~at least one~~ plurality of instruction ~~form is~~ forms are associated with a unique order instruction.

9. (currently amended) [A] The kit according to claim 1 wherein said ~~at least one~~ plurality of instruction ~~form~~ forms comprises information meta-data to be applied to ~~associated with~~ said images that follow each instruction form.

10. (currently amended) [A] The kit according to claim 5 wherein said ~~at least one~~ plurality of instruction ~~form~~ forms includes a human readable order instruction which corresponds to said machine readable code.

11. (currently amended) [A] The kit according to claim 1 wherein ~~said~~ machine readable code is provided in the form of an icon.

12. (currently amended) [A] The kit according to claim 1 wherein said kit further comprises a container for holding said plurality of images.

13. (currently amended) [A] The kit according to claim 12 wherein said container is provided with at least one section for holding images provided in other formats.

14. (currently amended) [A] The kit according to claim 13 wherein said at least one section is designed to hold one of the following image formats:

CD;

film cassette;
photo album;
flash card;
computer disk.

15. (currently amended) [A] The kit according to claim 5 further comprising a pair of identical labels, one of said labels is used for keeping track of the pocket from which said hard copy prints were originally provided and the other of said pair of identical labels is provided on said plurality of hard copy prints that were placed in said pocket from where said hard copy prints were originally provided.

16. (currently amended) [A] The kit according to claim 1 further comprising a holder having a plurality of pockets for categorizing of said plurality of images provided by said customer.

17. (currently amended) [A] The kit according to claim 1 further comprising a carrier for holding one of said plurality of image for allowing automatic feeding of said one of said plurality of image through a scanning device.

18. (currently amended) [A] The kit according to claim 17 wherein said carrier comprises a support surface having adhesive layer for holding of said image.

19. (currently amended) [A] The kit according to claim 18 wherein said carrier further includes alignment marks for assisting in positioning said image on said carrier.

20. (currently amended) [A] The kit according to claim 17 wherein said carrier comprises a retaining member located at one end of said carrier for securely holding said hard copy prints that are to be scanned.

21. (currently amended) [A] The kit according to claim 1 further comprising a tool for use in determining the number of said image that is to be scanned.

22. (currently amended) [A] The kit according to claim 1 wherein said machine readable code comprises a color.

23. (currently amended) [A] The kit according to claim 1 wherein ~~at least one~~ said plurality of instruction form forms having a size substantially the same as the size of said ~~plurality of customer provided~~ hard copy prints images associated with said plurality of instruction form forms.

24-52. (cancelled)

53. (currently amended) [A] The kit according to claim 1, wherein ~~the~~ machine-readable code is interpreted by a scanning device to provide meta-data regarding one or more subsequent images.
